## Record Review

A facility record review was completed by the Auditor while on site. This included staff and resident PREA-related records and PREA investigative reports.

## Staff

The Auditor selected and reviewed a variety of documents, files, and records discussed in detail below. Document sample sizes were derived from the PREA Auditor Handbook.

The Auditor requested the employee records specific to the items listed in the Document Review Checklist Employee Records (background checks, training records and disciplinary sanctions etc.). The Auditor reviewed 15 personnel records (14 employees and one contractor) which included evidence of background checks and discipline, and the training records of those same employees, which included evidence of PREA-related training. The file selections, as with the interview selections, span a variety of job functions and post assignments, including supervisory, line staff, and specialized jobs. In addition, the PREA refresher training records for the past year for all staff were reviewed. Based on the files reviewed, all staff appear to be up to date on PREA refresher training.

## PREA Investigations

The Auditor requested and was provided the investigative files for the five (5) investigative reports. The Auditor reviewed the investigative files for completeness and objectivity, using the PREA Document Review-Investigations Checklist as a guide.

## Residents

The Auditor requested the resident records specific to the items listed in the Document Review Checklist-Resident Records. The Auditor reviewed 16 resident files for documentation of PREA education, medical and mental health records, screening risk assessment, and appropriate bed and housing assignment. As part of the audit, the Auditor observed a resident intake and viewed the video used for resident PREA education.

## Grievance Program

The Auditor also reviewed the resident grievance program. During an interview, the PREA Coordinator explained the facility's grievance process. There were zero (0) PREA-related grievances reported in the 2 months preceding the PREA Audit.

## Exit Briefing

The Auditor concluded the on-site portion of the audit on June 9, 2021. An out-brief was conducted and attended by:

- Frank Wentzel, Administrator
- Harry Stasik, Executive Director
- Cindy Boyce, PREA Coordinator

The Auditor thanked the facility for their hospitality and transparency, identified compliance-related strengths and weakness, briefly discussed compliance-related opportunities, and explained the post on-site phase, which may include requests for clarification or additional documentation, a detailed standards analysis, corrective action plan development (if appropriate), report writing, and the issuance of an interim and/or final report.

## Post-Site Audit Phase

After the on-site portion of the audit, the Auditor began the Evidence Review phase, utilizing the Auditor Compliance Tool for Juvenile Facility as a guide to determine compliance with each standard. The Auditor utilized information from the PAQ as provided prior to the audit, policies and procedures, information observed from the site review, documents collected while on-site, and information obtained from both the staff and resident interviews to complete a systematic review and determination of compliance for each provision of every standard and to write a professional and through audit report. The Auditor also had several follow-up conversations with the PREA Coordinator during this phase. At the completion of all phases of this PREA Audit, the Auditor identified three (3) standard provisions within one (1) standard requiring corrective action, causing an interim report to be issued. The interim report was forward to the facility on July 25, 2021. Following this, the facility and the Auditor entered into a 180-day corrective action phase. Throughout the 180 days, the facility will maintain compliance with PREA standards. The facility can provide supporting documentation and other evidence to the Auditor throughout this period to support compliance with the corrective action and recommendations. The facility submitted the final corrective plan on September 28, 2021. The corrective action was reviewed and verified by the auditor and the report was finalized on October 21, 2021 and issued to the facility.

**Standards**

**Auditor Overall Determination Definitions**

- Exceeds Standard  
(~~substantially~~ substantially exceeds requirement of standard)
- Meets Standard

Based on the review of the Pre-Audit questionnaire and related documents submitted, PREA implementation appears to be organized and well-documented under the leadership of the PC. The preparedness for the audit and overall incorporation of institutionalized sexual safety practices demonstrates that the PC has sufficient time and authority to accomplish PREA responsibilities for the agency. Additionally, the PC's ability to delegate other duties, when necessary, further demonstrates she has sufficient time for overseeing PREA and sexual safety practices in the agency. Compliance with this provision was ~~55%~~ ~~55%~~

supervisors.

Evidence used to determine standard compliance includes: Auditor's observations from the site tour, the facility's staffing plan, the facility's policy for having Intermediate and higher-level supervisors conduct and document unannounced rounds, review of staffing records and interviews of random staff, intermediate and higher-level facility staff, the Executive Director, the Program Director and the PREA Coordinator.

The final analysis of the evidence indicates the facility has a staffing plan which had taken into consideration 11 out of 11 of the required criteria in calculating adequate staffing levels. The facility has not deviated from its staffing plan during this audit period. For the past 12 months, the facility has been averaging minimum staffing levels of one (1) staff to every eight (8) residents (1:8 ratio) during waking hours and one (1) staff to every 16 residents (1:16 ratio) during sleeping hours. The facility holds annual meetings to assess, determine, and document whether adjustments are needed to: (a) the staffing ~~and~~ iting

interviews with randomly selected resident and staff.

115.315 (f): All TSA staff have received training on conducting cross-gender pat-down searches and searches of transgender and intersex residents in a professional and respectful manner, consistent with security needs. Training records verified that all staff have received training on conducting cross-gender pat-down searches and searches of transgender and intersex residents in a professional and respectful manner, consistent with security needs.

Compliance with this provision was based upon the Auditor's review of the facility staff training records and a review of the lesson plan. Also supported by interviews with randomly selected staff and review of the training material and records.

Based upon the review and analysis of all the available evidence, the Auditor has determined that the agency is fully compliant with this standard. No corrective action is required.

115.316

Residents with disabilities and residents who are limite

Based upon the review and analysis of all the available evidence, the Auditor has determined that the facility is fully compliant with this standard requiring residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities) to have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. No corrective action is required.

Findings (TSA Provision)

115.352-100 TSA has an administrative procedure for dealing with resident grievances regarding sexual abuse. Therefore, the facility is not exempt from this standard. The administrative procedm

regularly and any concern is immediately addressed. The supervisor in charge will interview the student. That supervisor also has the responsibility to request an incident report from the staff member before the shift ends or before that staff member leaves the facility. The supervisor will report all allegations to the Program Director and to the Child Abuse Hotline.

Compliance with this provision is based upon the Auditor's review of the grievance policy and is supported by an interview with the Program Director.

115.352 (g): TSA Grievance Policy does not allow the facility to discipline a resident for filing a grievance alleging sexual abuse where the agency demonstrates that the resident filed the grievance in bad faith. In the past 12 months, no residents' grievances alleging sexual abuse were filed that resulted in discipline. ~~no~~ ~~at~~ ~~the~~ ~~director~~ ~~disciplat~~ ~~director~~ ~~evascipl~~

Director promptly reports the allegation to the alleged victim's parents or legal guardians. If the alleged victim is under the guardianship of the child welfare system, the Program Director reports the allegation to the alleged victim's caseworker instead of the parents or legal guardians.

Compliance with this provision is supported by an interview with the PREA Coordinator and a review of investigation reports.

115.361 (f): TSA reports all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports, to the facility's designated investigators who then reports it to Child Protective Services.

Compliance for this provision was supported by interviews with the Program Director and the PREA Coordinator and a review of investigation reports.

Evidences used to determine standard compliance includes a review of case files and interviews with randomly selected staff, Medical and Mental Health staff, Case Workers, the Program Director, and the PREA Coordinator.

Based upon the review and analysis of all the available evidence, the Auditor has determined that the facility is fully compliant with this standard requiring staff and agency reporting duties. No corrective action is required.
